DEPARTMENT OF AGRICULTURE

National Agricultural Statistics Service

Notice of Intent to Request Revision and Extension of a Currently Approved Information Collection

AGENCY: National Agricultural Statistics Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the intention of the National Agricultural Statistics Service (NASS) to request revision and extension of a currently approved information collection, the Vegetable Surveys Program. Revision to burden hours will be needed due to changes in the size of the target population, sampling design, and/or questionnaire length. Some of the vegetable production surveys will incorporate sampling of the total population of producers, while the processing surveys will involve a total enumeration of the entire population. Changes are being made to the commodities and States included in this group of surveys based on the comprehensive program review, which took place following the completion of the 2017 Census of Agriculture. Changes are also being made to some of the questionnaires to accommodate changes in the industry and to make the questionnaires easier for the respondent to complete. This should help to reduce respondent burden and improve the overall response rates.

DATES: Comments on this notice must be received by [INSERT DATE 60 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER] to be assured of consideration.

ADDRESSES: You may submit comments, identified by docket number 0535-0037, by any of the following methods:

SUPPLEMENTARY INFORMATION:

Title: Vegetable Surveys Program.

OMB Number: 0535-0037.

Expiration Date of Approval: August 31, 2019.

Type of Request: Intent to Seek Approval to Revise and Extend an Information Collection for 3 years.

Abstract: The primary objective of the National Agricultural Statistics Service (NASS) is to collect, prepare, and issue State and national estimates of crop and livestock production, prices, and disposition; as well as economic statistics, environmental statistics related to agriculture and also to conduct the Census of Agriculture. The Vegetable Surveys Program obtains basic agricultural statistics for fresh market and processing vegetables in major producing States. Vegetable statistics are used by the U.S. Department of Agriculture to help administer programs and by growers, processors, and marketers in making production and marketing decisions. The Federal vegetable estimation program now consists of 26 selected crops.

Every 5 years NASS conducts a program review following the completion of the Census of Agriculture. The primary purpose is to ensure that the NASS annual estimating program targets commodities and states most relevant based on the latest available information. Last fall NASS announced the program review and requested stakeholder input. The primary source of information for the program review is the Census of Agriculture, since it is the most comprehensive source of data; however we also take into consideration estimates from the current annual estimating program and administrative data. The detailed listing of program changes can be found at the

All questionnaires included in this information collection will be voluntary.

Authority: These data will be collected under authority of 7 U.S.C. 2204(a).

Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985 as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents.

This Notice is submitted in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-113) and Office of Management and Budget regulations at 5 CFR part 1320.

NASS also complies with OMB Implementation Guidance, "Implementation Guidance for Title V of the E-Government Act, Confidential Information Protection and Statistical Efficiency Act of 2002 (CIPSEA)," *Federal Register*, Vol. 72, No. 115, June 15, 2007, p. 33362.

Estimate of Burden: Public reporting burden for this collection of information is estimated to be between 5 and 20 minutes per respondent per survey.

Respondents: Farms and businesses.

Estimated Number of Respondents: 14,000

Estimated Total Annual Burden on Respondents: 5,000 hours.

Comments: Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the

validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, through the use of appropriate automated, electronic, mechanical, technological or other forms of information technology collection methods.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

Signed at Washington, D.C., April 1, 2019.

Kevin L. Barnes,

Associate Administrator.
